

Clear Horizon 70™ Window Film

Product Features

Savings. Comfort. Performance.

without sacrificing natural light

Enhance comfort and reduce energy use

- Low cost window retrofit and upgrade solution at fraction of cost to replace existing windows
- High transparency for virtually invisible appearance
- Improve customer and employee experiences by reducing uncomfortable solar heat gain
- Reduce cooling costs and consume less energy
- Protect and extend life of furnishings

Warranty

eTime warrants our film meets product specifications at time of shipping and for five (5) years against discolouration, peeling, bubbling or delamination from the glass, provided that product is installed by a qualified installer and maintained in accordance with window care instructions.

Product Technical Performance

Visible Light Transmitted	70%
Solar Heat Gain Coefficient	0.57
Total Solar Energy Rejected	50%
Light-to-Solar Gain Ratio	1.28
Ultraviolet Rejection	>95%
U Value (winter)	1.04
Visible Light Reflected (exterior)	<7%
Glare Reduction	20%

LEED Credits

Solar control window films can be used towards LEED for Existing Building Certification in the following manner:

- SS (Sustainable Sites) – Credit #7, Light Trespass light pollution reduction
- EQ 8.2 (Environmental Quality) – Glare reduction
- EQ 7.1 – Thermal comfort
- EA (Energy and Atmosphere) – optimize energy performance
- O+M, IO – Innovation in operations, operations and maintenance
